

# Centre of Innovation for IoT/M2M

## Collaboration for Standards Based Indigenous IoT/M2M Solutions

---

The **Center Of Innovation (COI)** will assist in development, integration and testing of innovative Smart Solutions based on oneM2M standards. The center will bring together various industry partners to create an end-to-end IoT/M2M solutions.

### How to Apply

Interested organizations are required to fill the online application form by clicking

**“Register for Collaboration”**

Available at

**<https://coi.cdote.in>**

Also provided are the details about the CCSP platform , application onboarding, testing along with Frequently Asked Questions (FAQs) , oneM2M guide etc .

### Objective

1. To create an ecosystem of indigenous solution developers and system integrators for development and deployment of oneM2M standards compliant IoT/M2M solutions.
2. To provide an easy to use facility for testing the oneM2M solutions developed by IoT/M2M solution providers and system integrators.
3. To create synergies among the Startups and IoT/M2M Industry for capacity building in the area of oneM2M standards-based products and applications.
4. To bridge the gap between R&D and commercialization of oneM2M standards based IoT/M2M products.
5. To promote innovations in the area of IoT/M2M.

**oneM2M standards have been adopted as National standards for IoT/M2M in India.**
